CERVERA IS IN A TRAP

Belief That the Spanish Admiral Will Have to Show His Mettle.

SAMPSON AND SCHLEY ARE NOW MORE THAN HIS MATCH

Washington, May 20—Special—Sampson's stratagem has succeeded and the Spanish fleet has fallen into the trap set for it. Cervera has taken his ships to Santiago, and here the two American squadrons will give it battle tomorrow or Sunday at the latest. Sampson is within a few hours' sail of the Spaniards; Schley can easily reach the spot tomorrow, and there can be no escape from a fight. The Spaniards are undoubtedly receiving fresh supplies of coal and provisions, but these will avail them little. In order to obtain these they have put themselves where they cannot retreat, but must fight. Perhaps this is what Cervera wants. Everything goes to show that he has supreme confidence in his own ability and in the invulnerability of his fleet, but there is much to indicate that he underestimates the force he will have to encounter. Sampson's squadron alone is vastly superior to Cervera's. With Schley's fleet co-operating the Spaniards will be at a great disadvantage.

A fight cannot be delayed longer than twenty-four hours. Its result is awaited here with perfect confidence of triumph for the American arms.

They Are Phantom Ships.

Washington, May 20—Special—Little credence is placed by the authorities here in the stories of the sighting of Spanish ships of war off the coast of Newfoundland, on the highway of the ocean liners. It is definitely known that there are no such ships there, and no danger whatever exists. The whereabouts of every vessel in Spain's navy is known to the navy department, and there is not a single craft bearing guns north of the latitude of Charleston, if indeed there are any as far north as that. Naval officers laugh at the idea of any menace of the nature referred to, and characterize the stories as the offspring of a fevered brain.

The Harvard in Danger.

St. Pierre, Martinique, May 20—Special—The United States cruiser Harvard, which sailed from this port yesterday, is in great danger. The Spanish torpedo boat destroyer Terror is expected to follow her shortly, and may attempt to destroy the Harvard.

The Charleston All Right.

San Francisco, May 20—Special—It is possible that the Charleston will leave for Manila within the next twenty-four hours. The injury to her condensers is not so serious as was at first supposed. Capt. Glass denies that the injury was due to treachery.

Merritt Receives Final Orders.

Washington, May 20—Special—Gen. Merritt arrived at the war department this morning, saw Secretary Alger and Gen. Miles, and received final orders. He will leave at once for San Francisco.

Sampson's Whereabouts.

Washington, May 20—Special—It is impossible here to learn the whereabouts of Sampson's fleet, despite the fact that it is reported to be at Key West. There is an air of expectancy among all.

Important Events Looked For.

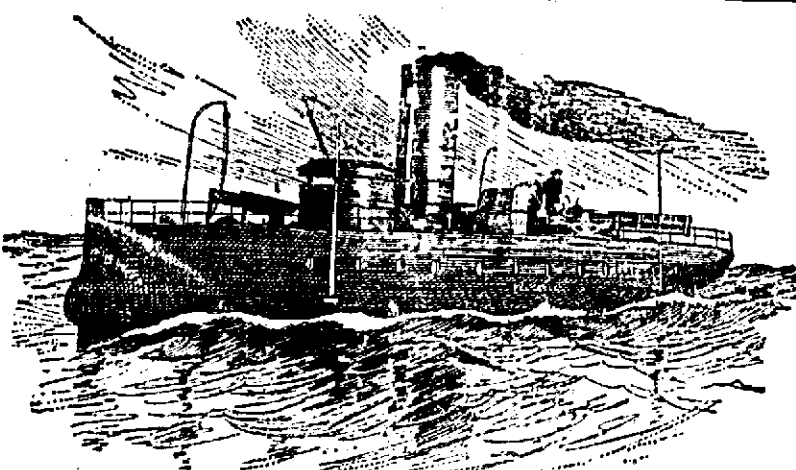

Washington, May 20—Special—Events of surprising importance are expected to develop within twenty-four hours. The details of important movements projected are not permitted to the censor.

More Prizes Captured.

Key West, May 20—Special—Two more prizes are coming into port with prize crews aboard. One is a steamship and the other is the bark Carlos F. Rosos, loaded with provisions for Havana.

Sends Troops to the Philippines.

Barcelona, May 20—Special—A large force of troops is embarking here for the Philippines.

TORPEDO BOAT STILETTO. The Stiletto is the only wooden torpedo boat in the navy. She is also the smallest torpedo boat in Uncle Sam's fleet. Her displacement is only 81 tons and her indicated horsepower 350. She has two torpedo tubes and is the only torpedo boat in the service that is not named after a naval hero.

FAREWELL TO BOYS OF THE FIRST REGIMENT LEFT CAMP HARVEY FOR FRONT TODAY.

The Equipment of the Regiment is Yet Incomplete—Considerate Conduct of Governor Scofield Many Visitors at Camp to Bid the Soldiers Good Bye

The regiment expected to leave for Tampa at 9 o'clock this morning. A dispatch from Adjutant General Corbin ordering him to start at once was received by Colonel Schell early yesterday afternoon, but he answered that the departure would take place definitely next morning at the hour named.

The equipping of the companies of the First regiment has been completed as far as the supplies in the hands of the quartermaster general of the state have allowed, but there are three companies that will go to Tampa without knapsacks, blankets, haversacks and canteens. Nine companies have complete equipments for sixty men each, and the rest of the men, as well as the three companies without the articles mentioned, will have to be provided for at Tampa, by the government. The full regiment is provided with rifles, bayonets, webbags, belts, blouses, trousers and campaign hats.

Governor Scofield made a personal effort to fit out the regiment with sufficient tentage and also bought enough tents to ship to Chickamauga for use of those of the boys of the Second regiment who have been without tent accommodations. Colonel Anderson, the governor's private secretary, notified the governor that many of the Wisconsin boys were obliged to sleep at Camp Thomas without cover, and he immediately sent for a certain tent dealer, and a purchase of sufficient tentage was promptly made. At 1:30 yesterday afternoon twenty bundles of tent canvas and twenty bundles of tent sticks, safely stored in an American Express car, left Milwaukee on the way to Chattanooga.

"We cannot do it quicker than the government," said Governor Scofield, "and we have done it with the understanding that every cent of the cost will be refunded to the state."

Given a Farewell.

The first section of the train that will take the regiment to Tampa will contain Colonel Schell and the officers and men of the First battalion, which is made up of the Milwaukee companies; the second section will carry the Second battalion and its officers, and Lieutenant Colonel Young with the battalion of Major Joachim, will take up the third section.

Yesterday afternoon several thousand Milwaukeeans went to Camp Harvey to give the First a hearty farewell. Mayor Rose engaged a band at his own expense for the occasion, and a stirring address was delivered by Joseph V. Quarles, who is renowned as one of Wisconsin's most eloquent orators. The regiment was drawn up at the grand stand at Camp Harvey, while Mr. Quarles and Mayor Rose addressed it. The offices at the city hall were closed, the business houses shut down early, and thousands witnessed the parting between the 300 Milwaukee boys and their parents.

ROCK COUNTY BENCH AND BAR

The bar of Rock county held a meeting at the office of Smith & Pierce yesterday afternoon to take such action as might be deemed necessary in relation to the centennial anniversary at Madison next month. After some discussion it was decided to empower the president to appoint a committee of five to write up a history of the Rock County Bar association. The general committee was also empowered to appoint sub-committees or assistants to aid them in the preparation of the work.

President William Smith has not appointed his committee, but will do so within a few days.

ALL THE NEWS OF THE BADGER STATE

PAPER MAKERS SUFFERING FOR WANT OF SULPHUR.

Arrangements for the G. A. R. Encampment at Appleton—A Gala Time Promised—Pike Fry from the State Hatchery—Kenosha Tanners' Strike Stops Work.

Appleton, Wis., May 20.—Reports from the East show that the situation as regards the sulphur supply for the paper mills is daily becoming more serious. As a result prices of paper are advancing and some very high rates are quoted. Two pulp mills, one in New York, another in Maine, shut down for a few days for want of brimstone and were only able to resume work when given a small supply by other manufacturers. There is between 15,000 and 20,000 tons of sulphur at present, en route for Canada, but the hopes of American mill men that they could replenish from these cargoes were dashed by the protest of S. M. Bannell, the Spanish consul-general at Montreal. He protested against the export to the United States on the ground that sulphur is contraband of war and an interdiction in favor of Spain is expected daily.

STRIKE CLOSES THE TANNERIES

All Work Suspended Pending an Adjustment of Difficulties.

Kenosha, May 20.—The Allen tanneries will be closed on account of the mammoth proportions to which the strike has grown. Yesterday morning as the men who did not go out were going to work, they were met by a crowd of strikers who threatened to do violence if they would not quit work. The men at first refused, but when the crowd began to throw bricks they saw the strikers meant business, and went home again. Mr. Allen made an effort to compromise with the men, but they refused to accept. The going out of the rest of the men leaves the plant idle, and Mr. Allen says they will not attempt to resume work at present.

PRINCE ALBERT WAS HERE

Belgian Nobleman Passed Through Janesville Yesterday On C. & N. W. Road.

Prince Albert of Belgium, with his suite passed through Janesville yesterday morning, en route from Duluth to Chicago on the C. & N. W. road.

A private car belonging to President J. J. Hill of the Great Northern road, conveyed the royal visitor and his entourage.

A long overcoat buttoned up to his chin might have conveyed the idea that the royal visitor felt the chill that was in the air, but he felt rugged enough to be indifferent to the state of the weather.

In appearance the Belgian prince might be 25, perhaps several years younger. He is tall with decidedly the looks and manner of a man of books rather than that of one trained to a career of action. He appeared slow in his movements and all of his actions appeared to be those of a man accustomed to act with reserve. A smooth face and a thin growth of light hair give the prince a youthful look. He is said to be sociable and affable, and Conductor O. E. Hallisey, whose train carried the party, asserts the Belgian is an agreeable young man.

Prince Albert's chief diversion while traveling is said to be photography, as he carried a camera in his hand.

WORK OF THE W. C. T. U.

Women Meet and Discuss Past Work and Future Plans

There was a large attendance at the meeting of the W. C. T. U. yesterday afternoon at the home of Mrs. E. Brand, No. 153 Linn street. A letter was read from Orlando Burnett descriptive of the W. C. A fatherless babe is born here every week. All are tenderly cared for, and the mothers go forth quietly leaving their little ones behind, to begin a new life, and the world may never know that they have been mothers before they became wives.

RELIEF FROM PAIN.

Mrs. T. A. WALDEN, Gibson, Ga., writes: "DEAR MRS. PINKHAM:—Before taking your medicine, life was a burden to me. I never saw a well day. At my monthly period I suffered untold misery, and a great deal of the time I was troubled with a severe pain in my side. Before finishing the first bottle of your Vegetable Compound I could tell it was doing me good. I continued its use, also used the Liver Pills and Sanative Wash, and have been greatly helped. I would like to have you use my letter for the benefit of others."

Mrs. FLORENCE A. WOLFE, 515 Mulberry St., Lancaster, Ohio, writes: "DEAR MRS. PINKHAM:—For two years I was troubled with what the local physicians told me was inflammation of the womb. At last I concluded to write to you in regard to my case, and can say that by following your advice I am now perfectly well."

Mrs. W. R. BATES, Nantfield, La., writes: "Before writing to you I suffered dreadfully from painful menstruation, leucorrhoea and sore feeling in the lower part of the bowels. Pinkham's Vegetable Compound enough. It is the greatest remedy of the age."

SESSIONS BEGIN AT WINONA.

Evidence of Patriotism Shown by the Attending Divines—Pray for the Success of Our Country in the War with Spain.

Winona Lake, Ind., May 20.—The Rev. Wallace Radcliffe, D. D., of Washington, D. C., is moderator of the general assembly of the Presbyterian church. Three hundred and thirty-three commissioners voted for him today, while 225 called for the Rev. Henry C. McCook, D. D., of Philadelphia. The Rev. William Henry Roberts, D. D., of Philadelphia, got out of the contest early in the day, and let his vote go for Dr. McCook. Dr. McCook asked to withdraw, but nobody would give him permission. He told the assembly he had been commissioned chaplain of the Second regiment of Pennsylvania. This regiment had been mustered into service, and he was waiting to go along with it.

Dr. Radcliffe got his strength mostly in the west and middle west. New York was generally for him and he received a little notice in the balloting of Pennsylvania and some of the Atlantic coast states.

At the announcement of the result Dr. Radcliffe, with his new honors, thanked the assembly. "We do not deal with little things," he said; "this assembly goes for the big, for those which make history. We are like Admiral Dewey; we seize the enemy where it is the strongest, and we subdue it. We come to our Jerusalem at this time through the sounds of war, and it is but the re-echoing of guns fired at Westminster."

The hall in which he spoke was dotted with flags and adorned with broad strips of hunting. Women at the assembly brought in violets, quince blossoms and other wild flowers. Framed in green, "1648" was mounted majestically on one side of the platform, while "1898," with the same trimmings, was on the other side.

At the opening of the morning session Rotting Moderator Jackson offered invocation. Musical Director Marshall waved his baton, and a thousand throats sang the opening hymn, "Morning Light is Breaking."

The sermon of the retiring moderator was an earnest plea for the works of home mission to which he has devoted his life. It was heard with close interest throughout.

After the Rev. George D. Nixon of the New York synod read from Joshua, the Rev. W. C. Roberts of New York offered a prayer, closing his petition with "Bless President McKinley in these dark hours, and guide him as Thou hast in the past; bless the army and navy; give us a speedy victory and give us peace; give us the assurance that we have raised a great work for the uplifting of nations and the cause of humanity."

That thoughts of war dwelt in all minds was manifest, and the singing of "America" closed the morning session.

Between sessions at the hall there is heard the suggestion that the assembly may go to Minneapolis next year. The Rev. Dr. Pleasant Hunter has an earnest request from his Westminster church, Minneapolis, and the commissioners like to think of the prospects in the Minnesota city.

TO ADJUST MINING SCALE.

Operators and Miners of Illinois Will Meet Jointly.

Springfield, Ill., May 20.—State meetings were held Thursday by the Coal Operators' association and the United Mine Workers preparatory to a joint conference to be held to adjust the scale in the Fourth district. For some time past the mines at Vir-don, Girard, Milwood, Pana, Assumption and other places in the central and southern field have been shut down, the operators claiming that the new state scale put them at the mercy of their competitors in other districts. The differential in the price of hand and machine mining, it is claimed, is not equitable.

The association voted 38 to 18 against changing the scale. Similar action was taken by the miners, at whose meeting President Hunter and about 100 delegates were present.

Attempt to Blow Up Magazine. South Framington, Mass., May 20.—There is great excitement at Camp Dewey over a reported attempt made last night, to blow up one of the magazines of the camp. The officers will say nothing about the affair, but extra guards armed with rifles have been stationed about the magazines.

New York, May 20.—The central cable office of the Western Union telegraph company has sent out notice that the Porto Rico government has modified its order of May 17, and now permits messages in plain language to and from the United States, subject to the sender's risk.

Death of a Famous Scout. Denver, Col., May 20.—News has been received from Rawlins, Wyo., of the death, at his home on Snake river, eighty miles south of Rawlins, of "Jim" Baker, the famous scout and Indian fighter. Baker's death was due to old age, he being about 90.

Prince Bismarck Is Sick. Berlin, May 20.—A dispatch to the Klein Journal from Friedrichsruhe says that Prince Bismarck is sick and that Dr. Schweninger has been summoned by telegraph from Baden.

Not Their Fault. urist—But it is terrible to think of a man under such circumstances. No time to repent—no clear present—Western—Well, we had a minister to line the lynching, but he wouldn't have nothin' to do with it.—Puck.

AN ANTI-MACHINE MACHINE.

If our republican friends in Milwaukee who are perfecting an organization to overthrow the management and defeat the aspirations of certain other republicans, and to secure control for themselves and preferment for their own special friends, succeed in their efforts, will they not have constructed a political machine which may be obnoxious to other members of the party? How would it do to stop all this dangerous talk about machines, and all go in together as republicans to extend republican theories and elect republican candidates. The republican party in Wisconsin is strong, but it is not strong enough to carry on an internal warfare, and at the same time successfully combat its political opponents. All efforts should be made to unite rather than to divide our political councils and forces.—Madison Journal.

DEATH OF GLADSTONE

In the death of William E. Gladstone the world loses one of the stalwart figures of the century. The people of the globe will mourn his demise and from every clime will come tributes to his worth.

Mr. Gladstone came of Scottish ancestry but he was born at Liverpool on Dec. 29, 1809. He was educated at Eton and Christ Church, Oxford, graduating in 1831 with the highest honors. Then his public life began. He has been offered a peerage on several occasions, but each time declined, preferring to be "the great commoner." Although the most prominent man in politics of his time he found opportunity to contribute to literature liberally and his writings have attracted wide attention.

This nation is on the high road to real greatness. We are building up a navy that will command the respect as well as the admiration of the world. With a great navy there will come a great mercantile marine as a matter of course. The American traveler of the future will have no excuse for complaining that the Star Spangled Banner is seen nowhere outside of the United States.—Chicago "Inter-Ocean."

The gang to be arrested will consider it a treat. The stores will be compelled to have a bargain sale each day, and soda you will not be asked to pay. Oh, great reforms will be projected, all the wrongs will be corrected, When Mary Jane is elected to the majority chair.

SAMPSON AND SCHLEY MEET.

Within Four Days, It Is Expected, a Decisive Engagement Will Be Fought. — Later News of the Bombardment of Santiago.

Madrid, Midnight, via Paris, May 20.—The Spanish squadron has arrived at Santiago de Cuba without accident. The news is confirmed by a direct cable message from Santiago de Cuba. The dispatch said the event caused great enthusiasm there. The Spanish fleet on arriving found there two American warships, which retired with all speed.

Key West, Fla., May 20.—Admiral Sampson's fleet arrived here Thursday afternoon, quite unexpectedly. Now both the big squadrons are here, Commodore Schley having arrived Wednesday.

New York, May 20.—The probable combination of Sampson's and Schley's squadrons at or near Key West makes it altogether reasonable that within four days the Spanish fleet, which is reported to have arrived in Santiago de Cuba, will be met in battle. All the armor-clads of the United States navy are now at Sampson's disposal, provided the Oregon has reached his fleet, as there is some reason to believe she has.

Good Prospect for a Big Battle.

Washington, May 20.—The prospect of a big sea fight suddenly improves. Official dispatches of considerable length reached the navy department from Admiral Sampson reporting the position of his ships and his latest information concerning the Spanish fleet. The ships which entered Santiago de Cuba Wednesday and bombarded the fort at the entrance to cover an attempt to cut the cable were from Sampson's fleet. Two cables run from Santiago, one south to Kingston, Jamaica, and the other eastward to Haiti. For two weeks Admiral Sampson has been trying to break cable communication with Cuba, and the lines from Santiago were all that remained in working order.

Thursday a cable was received from Kingston stating that a fleet of warships was sighted from Morant Point going at full speed and in a northerly direction toward Santiago de Cuba. Morant Point is the extreme eastern part of Jamaica. A brief message from Madrid announces the Spanish squadron has arrived at Santiago de Cuba without accident. Just about enough time has elapsed for the fleet seen off Morant Point to reach Santiago.

If the report is true that Cervera is at Santiago de Cuba an immediate movement of the fighting squadron to that port will take place. The bay of Santiago is one of the most beautiful of the island. It is six miles long and two miles wide, but much of it is too shallow for the movements of battleships. According to later reports there are about 10,000 Spanish soldiers there, and the conditions are very bad. It may be the purpose of Admiral Cervera's visit to move these soldiers either to Porto Rico or westward along the south coast of Cienfuegos, whence they could reach Blanco. The troops at Santiago are said to be suffering for food, and cannot leave by land, as there are no railroad facilities, and the surrounding country is in control of insurgents.

FIRE ON OUR SHIPS.

Guns at the Harbor Entrance to Santiago Attack American Visitors.

Off Santiago, Kingston, Jamaica, May 20.—Two American warships, whose names were not discernible from the shore, appeared off Santiago de Cuba Wednesday while the steamer Adula, which has arrived here from that port with refugees, was in the harbor. They approached and drew the fire of the batteries at the harbor entrance.

It is not certain whether the warships replied to the fire. The firing continued from noon to 1 o'clock. Capt. Walker of the Adula, when coming out, could not see any marks on Morro castle, and inferred that the American ships drew the fire of the batteries to learn the range.

There was much excitement in the city. The regulars and volunteers were called out and new earthwork batteries erected on each side of the harbor entrance. The number and caliber of the guns are unknown, but it is known that there are twenty-one torpedoes in the channel electrically connected with the shore.

The cruiser Mercedes, whose boilers are disabled, has been anchored so she can rake the channel for 200 yards.

THOUGHT DR. HALSEY WAS INEBRIATED

EXPERIENCE OF A FORMER JANESVILLE PASTOR

He Is Arrested at Racine Charged with Intoxication—His Suspicious Conduct Explained to the Satisfaction of the Judge and His Friends.

A Racine dispatch to the Milwaukee Sentinel contains the following relating to the misadventures of Dr. Sabin Halsey, formerly pastor of the Court Street M. E. church, of this city:

The Rev. Sabin Halsey, of Milwaukee, for many years one of the best known Methodist clergymen in the state, was arrested here today on suspicion of being a horse thief. A charge of intoxication was preferred instead, and this charge was withdrawn upon paying the costs, amounting to \$4.50.

The arrest was made under peculiar circumstances. Mr. Halsey made his appearance here with a horse and buggy, both covered with mud. Mr. Halsey himself was also plastered with mud and had no control of the horse, which was running from one side of the street to the other, while he sat bent over and apparently asleep. An officer stopped the horse, not knowing who the man was, and believing that he had stolen the rig, jumped in and questioned him, asking him where he got the horse, who he was, and where he came from. Dr. Halsey replied that he had not stolen the rig, that his name was Halsey, and that he came from Milwaukee. The officer said it looked rather suspicious and took the man to the county jail. There it was that Dr. Halsey explained who he was, but still doubts were expressed as to the truth of his statement. He was searched and his bank book bore the name he had given and there was also found upon his person, a gold watch and a bottle partly filled with whiskey. The Sentinel representative and the Rev. Dr. Haylett, of the Methodist church, who called at the jail identified the unfortunate man to the satisfaction of the authorities.

Dr. Halsey Tells His Story.

In reply to further questions Mr. Halsey said: "You know that about a year ago I was obliged to give up preaching on account of having diabetes, being then at Janesville. I owned a couple of stores at Milwaukee and bought out a bakery and started in business for myself. I had just disposed of the business and left Milwaukee this morning with the horse and buggy to drive to Pleasant Prairie, Kenosha county, where my wife is stopping. I stopped at South Milwaukee and had breakfast with my nephew, remained there a short time, and started on. While en route I was taken deathly sick and vomited considerably. Of course the roads were muddy and as I drove very fast the horse, buggy and myself became covered with the mud. When driving along one of the streets in this city a man leaped into my buggy and said that he was a detective and that he believed I had stolen the horse. I told him that I had owned the animal two years, but he took me to the jail. "I admit that I had a bottle of whiskey in my pocket which I generally carry when going through the country and sometimes drink a little when taken suddenly sick but did not touch a drop today. I am not intoxicated and have not been."

The Policeman's Story

The policeman who made the arrest was Officer Shumacher, one of the most careful men on the force. He said that he noticed the rig coming south on St. Clair street. It was covered with mud and the driver was leaning over as if asleep and the horse went from one side of the street to the other and as people repeatedly called his attention to the peculiar actions of the horse and man he simply stepped into the buggy and asked the man who he was and where he got the rig, suspecting that he might have stolen it. He believed that the man had been drinking and he took him to the jail to find out who he was and where he came from and then preferred a charge of intoxication.

Days Costs and Charges Withdrawn.

When brought before Judge Platt, of the municipal court, Mr. Halsey pleaded not guilty, and made an explanation about the case as given above. The Rev. Mr. Haylett and A. P. Dutton, president of the Old Settlers' society, were in court with Mr. Halsey, and it was agreed that the charge would be withdrawn if Mr. Halsey paid the costs, which he did. He was then taken to the home of the Rev. Mr. Haylett, and will be kept there for a few days.

The actions of Mr. Halsey indicate, his friends say, that he is not a well man, and possibly not responsible for his actions. The Rev. Mr. Haylett, the police and Judge Platt all agreed he was not right in his mind. Although Mr. Halsey was not intoxicated when the Sentinel correspondent talked with him at the jail, the fumes of liquor were perceptible and if he did drink from the bottle when in such pain and sick, he did not remember it.

Mr. Halsey was the presiding elder of the Milwaukee district for several years, and pastor of the leading church of Milwaukee for many years. From Milwaukee he went to Janesville, where his health gave out and physicians advised him to take a rest for a few years. He went to Milwaukee and entered business and it was said

that he had nearly regained his health and would enter the Methodist conference next fall, intending to spend the time then fishing and hunting.

INSPECTOR TAYLOR VISITS THE JAIL

GOVERNOR SCOFIELD'S MAN HERE YESTERDAY.

Will Make a Report of the Jail's Present Condition—Thinks That There Is Plenty of Room for Improvement—Also Visited the County Poor Farm.

Acting under instructions from Gov. Scofield, George W. Taylor, of Marinette, spent yesterday morning in the city inspecting the inn and out of Rock county jail. That his report will not be a flattering one for that institution is a foregone conclusion, for Mr. Taylor was anything but pleased with the condition of affairs he found there. The inspection was made in the morning in charge of Turnkey Brown, and every nook and corner of the bastille was carefully looked into. In Poor Condition.

The same condition of affairs that confronted the state board of health when they visited the jail last summer was apparent when Mr. Taylor arrived yesterday with the single exception that the walls presented a neater appearance the result of a coat of whitewash that was administered but a few days ago. The ventilation was found to be just as bad as ever and what few prisoners were behind the bars readily testified to this fact when asked by the inspector. The interior of the cells was in fairly good condition the festive bed bug that figured so prominently during the last inspection was this time noted for his absence.

During the inspection Mr. Taylor carefully made a note of all that transpired, and judging from what was said there is little doubt but he was displeased with the present system of sewage. The roof of the jail is also in poor condition, and with the proper tools in hand a man would make short work in gaining his liberty from any quarter of the corridors. When Gov. Scofield receives this report there is no telling as to what will be the outcome.

Pleased With the Poor House.

In the afternoon Mr. Taylor was driven to the county poor house, where he made a thorough inspection of that well kept institution and was afterward shown through the county insane hospital. In speaking of the hospital and the poor house Mr. Taylor stated that in his opinion no better kept or conducted institution of a similar kind existed in the state of Wisconsin.

TOBACCO PRICES ARE RAISED

An Advance of About 20 Per Cent. Charged By Dealers.

The price of tobacco, prepared for smoking and chewing, has gone up some twenty per cent. in the local market. Four ounce packages of choice smoking tobacco, which formerly retailed at 15 cents, now cost twenty cents. The plugs of chewing are the same price as formerly, but their size is smaller. Dealers say the advance is made necessary by the scarcity of the supply, and they expect a still further increase if the war is long continued.

SINNISSIPPI GOLF CLUB SECURES WOODRUFF FARM.

Ninety Acres Purchased by the Country Club, and to Be Leased to the Golfers—All the Shares Taken, and Suitable Quarters Are to Be Built.

The deal for purchasing ninety acres of the Woodruff farm for the Sinissippi Golf club was practically closed today. The option held by the club has been accepted. One hundred shares of stock at \$50 a share provide means for making the purchase. Ninety-two shares had been sold at noon today, with a conditional promise of three more, and it was expected the deal would be closed this afternoon.

The land is not to be bought by the Golf club, but by the Janesville Country club, an association composed in a large measure of golf club members. The Country club will build a club house and rent house and land to the Golf club, at a price equivalent to 6 per cent. on the investment.

The price paid for the land is \$50 an acre, at which price it is regarded as an exceptionally good purchase.

MANY TRIBUTES TO HIS WORTH.

Passing Away of the Great Statesman
Evokes Sorrowful Expressions from
Every Quarter of the Globe—House of
Commons Adjourns.

Hawarden, May 20.—Hawarden castle has been deluged with expressions of sympathy on the death of Mr. Gladstone and testimonials to his greatness from all over the world.

The following dispatch has been received at Hawarden from the United States ambassador, Col. John Hay:

"To the Rt.-Hon. Herbert Gladstone, Hawarden: I beg to present to all your family my heartfelt expression of sympathy at your personal loss, and at the same time congratulate you and the English race everywhere upon the glorious completion of a life filled with splendid achievements and consecrated to the noblest purposes."

"JOHN HAY."
Manifestations of the deepest grief are reported throughout the country. Flags are everywhere at half-mast, the bells were tolled, shades are drawn, and in the public galleries the pictures of Mr. Gladstone have been draped with crepe.

The queen and the prince of Wales received an early intimation of the sad news, and immediately sent touching expressions of condolence to the widow.

Further details from Hawarden castle of the passing away of the great English statesman show that his end was the most peaceful imaginable.

London, May 20.—Public opinion is profoundly stirred by the death of Mr. Gladstone. A member of the cabinet, in the course of a long interview, says:

"It is difficult to find words adequate to express one's feelings at such an event. The disappearance of such a central figure is a tremendous loss. In parliament and throughout the country his influence over our public life was unparalleled."

Sir Charles Dilke, radical member for the Forest of Dean, said: "Mr. Gladstone's leading personal characteristic was old-fashioned courtesy; while as a statesman it was his absolute mastery of finance, both in principle and detail, a mastery which was incomparable and superior to that of any of his contemporaries."

The house of commons was crowded Thursday, and when the speaker, William Court Gully, called upon the government leader, A. J. Balfour, the first lord of the treasury, all present uncovered their heads.

Mr. Balfour said: "I think it will be felt in all parts of the house that we should do fitting honor to the great man whose long and splendid career has closed, by adjournment."

"This is not the occasion for uttering the thoughts which naturally suggest themselves. The occasion will present itself tomorrow, when it will be my duty to submit to the house an address to the queen, praying her to grant the honor of a public funeral, if such honor is not inconsistent with the expressed wishes of himself or of those who have the right to speak in his behalf, and also praying the queen to direct that a public monument be erected at Westminster, with an inscription expressive of the public admiration, attachment and high sense entertained by the house of Mr. Gladstone's rare and splendid gifts and devoted labors in parliament and in the high offices of state."

"Before actually moving the adjournment I have to propose a formal resolution that the house tomorrow resolve itself into committee to draw up an address, the contents of which I have just indicated."

After a word of assent from Sir William Vernon Harcourt, the liberal leader, the resolution was adopted and the house adjourned.

All the continental papers publish tributes to the late Mr. Gladstone. The French papers are especially sympathetic and the Greek newspapers express deep gratitude for what Mr. Gladstone did for Greece.

Almost every court in Europe has wired condolences.

Vice-President Hobart of the United States cables the Daily Chronicle as follows: "Not even in his own land was Mr. Gladstone more highly esteemed and venerated than in the United States. His death has been well nigh a national calamity to us and it occurred at a time when our people are closely drawn by ties of sympathy and mutual interest toward the nation to which his long career of public usefulness was so generously dedicated."

The body has been removed to the large bedroom and placed in a plain coffin, surmounted by an oak cross, extending nearly the whole length of the lid. At its foot will be the inscription: "Three panels are on each side, the center of each being of raised dark metal."

The date of the funeral has not been fixed, but probably Tuesday will be chosen. The preparations continue for a burial at Hawarden. The family had received no notice of the national funeral which will be voted in parliament. The general opinion favoring an interment in Westminster abbey, the family will probably give way to the national request. Mr. Gladstone did not leave any wishes on the subject. Dean Bradley of the abbey has selected as the most suitable spot the nave.

Officers Elected at Decatur, Decatur, Ill., May 20.—The third day's session of the Illinois Christian Sunday School Association closed Thursday. It was voted to hold the next convention at Eureka in July, 1899. E. A. Gilliland of Clinton was chosen president.

Purchase last season is telling a wonderfully good tale for us now.

The wholesale market has advanced to an extent that were we obliged to purchase the same goods as are listed below today we would pay more than we offer them at retail.

We maintain the standard of prices however, for the present but wont guarantee them to remain low any length of time.

A big Chicago wholesale house offered us all we ask at retail for our tomatoes a few days ago.

We are protecting grocery buyers on all grocery articles.
